EXPERIENCE

Webasha Technologies, Pune — Cloud Engineer

Dec 2024 - PRESENT

- Work with AWS core services including EC2, S3, IAM, and VPC to provision, configure, and manage cloud infrastructure following best security practices.
- Deploy and manage Docker containers by building custom images, running multi-container applications.
- Implement secure SSH access, configure key-based authentication.
- Support basic Kubernetes concepts including Pods, Deployments, and container orchestration fundamentals.
- Use Terraform to automate AWS resource provisioning and maintain infrastructure consistency across environments.

PROJECT EXPERIENCE

- Deployed Serverless application on AWS using S3, API GATWAY, LAMBDA, DYNAMODB, AND CLOUDFORNT. [LINK](#)
- Deployed web applications on AWS by provisioning EC2 instances, configuring Security Groups, SSH key-based authentication, and implementing secure cloud networking best practices. [LINK](#)
- Implemented infrastructure monitoring using Grafana with custom dashboards and threshold-based alerts for CPU, memory, and disk utilization. [LINK](#)
- Designed and implemented Infrastructure as Code (IaC) using Terraform to automate provisioning of AWS resources such as EC2, VPC, and Security Groups, improving deployment consistency, scalability, and reducing manual configuration efforts.

Bajaj Finserv, Pune —QA Analyst - Jun 2023 - Aug 2024

Profound Edutech , Pune —Trainee - Feb 2022 - May 2023

Hudl Sport India Pvt Ltd. Pune —Sport Analyst- Jun 2021 - Jan 2022

SKILLS

AWS Fundamentals

Terraform

CI/CD

Docker

Kubernetes Fundamentals

Monitoring

Python

Linux

AWARDS

Recognized for quick learning and adapting to project workflows.

Appreciated for accurate task completion and maintaining quality standards.

Contributed effectively to team activities and documentation.

Received positive feedback for punctuality, communication, and teamwork.
